

Enhanced Biennial Rule Review

“The SBA has completed the Enhanced Biennial Rule Review required pursuant to section 120.745, Florida Statutes, by cooperating with the Office of Fiscal Accountability and Regulatory Reform in conducting a review of the SBA’s rules (including those for the FRS Investment Plan, Florida PRIME, and the FHCF). In conducting the review, the SBA determined whether any rules need to be revised or repealed and identified those rules that require the collection of data or authorize the collection of revenues.
