Mr. Stuart Miller
AIR Worldwide Corporation

Boston, MA 02116-5134

Dear Mr. Miller:

The Florida Commission on Hurricane Loss Projection Methodology (Commission) reviewed and discussed at the September 17, 2008 meeting, the AIR Worldwide Corporation letter dated August 27, 2008, notifying the Commission of "a minor software issue" with the Atlantic Tropical Cyclone Model V10.0, Program CLASIC/2™ V10.0.

This will confirm the finding of the Commission on September 17, 2008, that the acceptability of the AIR Worldwide Corporation computer model did not change and has been determined acceptable for projecting hurricane loss costs for personal residential rate filings.

The Commission has determined that the Atlantic Tropical Cyclone Model V10.0, Program CLASIC/2™ V10.1 complies with the Standards adopted by the Commission on September 20 & 21, 2007, and concludes that the Atlantic Tropical Cyclone Model V10.0, Program CLASIC/2™ V10.1 is sufficiently accurate and reliable for projecting hurricane loss costs for residential property in Florida.

Sincerely,

Randy Dumm, Chair

Dear Mr. Miller:

This will confirm the finding of the Florida Commission on Hurricane Loss Projection Methodology on May 20, 2008, that the AIR Worldwide Corporation computer model has been determined acceptable for projecting hurricane loss costs for personal residential rate filings.

The Commission has determined that the Atlantic Tropical Cyclone Model V10.0, Program CLASIC/2™ V10 complies with the Standards adopted by the Commission on September 20 & 21, 2007, and concludes that the Atlantic Tropical Cyclone Model V10.0, Program CLASIC/2™ V10 is sufficiently accurate and reliable for projecting hurricane loss costs for residential property in Florida.

On behalf of the Commission, I congratulate you and your colleagues. We appreciate your participation and input in this process.

Sincerely,

Randy Dumm, Chair
