June 20, 2013

Dr. Justin Brolley  
EQECAT, Inc.  
475 14<sup>th</sup> Street, Suite 550  
Oakland, California 94612-1900

Dear Dr. Brolley:

This will confirm the finding of the Florida Commission on Hurricane Loss Projection Methodology on June 20, 2013, that the EQECAT, Inc. computer model has been determined acceptable for projecting hurricane loss costs and probable maximum loss levels for residential rate filings. The determination of acceptability expires on September 1, 2015.

The Commission has determined that the Florida Hurricane Model 2013a complies with the standards adopted by the Commission on October 19 & 20, 2011 and November 16, 2011, and concludes that the Florida Hurricane Model 2013a is sufficiently accurate and reliable for projecting hurricane loss costs and probable maximum loss levels for residential property in Florida.

On behalf of the Commission, I congratulate you and your colleagues. We appreciate your participation and input in this process.

Sincerely,

Lorilee Medders, Chair
