¹ The "Cost" and "Market" columns generally include cash, investment securities, accrued income, pending trades, and the total unrealized gain or loss on invested securities lending cash collateral (if applicable). They do not include security lending income receivable, manager fees payable, and also may not include other receivables or payables that are unique to individual portfolios or funds.

² The line titled "Less Florida PRIME Holdings in SBA Funds" includes the total investments in Florida PRIME held by other SBA managed funds that are already included on this report. In order to prevent double counting, these amounts are shown as a reduction to the Florida PRIME fund.

 $^{^{\}mbox{\footnotesize 3}}$ Fund is invested completely, or partially, in Florida PRIME.

⁴ In accordance with HB 5011, effective 7/1/2021, LCEF was liquidated and the proceeds returned to the Division of Treasury Budget Stabilization Fund. Residual funds from dividends, tax reclaims and other settlements will continue to be received by SBA over the next few years and transferred quarterly to the Division of Treasury Budget Stabilization Fund.

⁵ Since all investments in the Debt Service Escrow Fund will be held to maturity in nonrefundable escrow deposit agreements, this fund is reported at cost.

⁶ The Florida Prepaid College Foundation's Florida PRIME investment balance is displayed separately, beginning this month, to be consistent with the separate display of other reporting Florida Prepaid funds invested in Florida PRIME. In prior month's the Foundation's investment was included as part of the Florida PRIME investment total.

D. Pension Plan Total Fund and Asset Class Risk Monitoring

The SBA monitors investment risk relative to established risk and return objectives, leverage, intra-asset class allocations and individual portfolio limits. Risk Monitoring Standards are established for the Total Fund and each asset class. Active Risk Monitoring Standards for the FRS Pension Plan include the following:

- 1. Total Fund (excluding Private Markets), Public Market Asset Classes and Tactical Asset Allocation Active Risk.
- 2. Private Market intra-asset class ranges versus actual allocations, where applicable.
- 3. Asset Class Risk and Return Objectives, where applicable.
- 4. Asset Class leverage exposure, where applicable.

Realized Risk may fluctuate around the monitoring standards. If risk levels materially or persistently exceed or lag the monitoring standards, a risk management response will be prepared.

The Total Fund and all asset class risk levels remain within acceptable risk levels.
