They do not include security lending income receivable, manager fees payable, and also may not include other receivables or payables that are unique to individual portfolios or funds.

<sup>2</sup>The line titled "Less Florida PRIME Holdings in SBA Funds" includes the total investments in Florida PRIME held by other SBA managed funds that are already included on this report. In order to prevent double counting, these amounts are shown as a reduction to the Florida PRIME fund.

<sup>3</sup>Fund is invested completely, or partially, in Florida PRIME. This information is not audited by an independent auditor and is subject to change.

<sup>4</sup>In accordance with HB 5011, effective 7/1/2021, LCEF was liquidated and the proceeds returned to the Division of Treasury Budget Stabilization Fund. Residual funds from dividends, tax reclaims and other settlements will continue to be received by SBA over the next few years and transferred quarterly to the Division of Treasury Budget Stabilization Fund.

## D. Pension Plan Total Fund and Asset Class Active Risk

The SBA monitors investment risk relative to established targets. This realized active risk represents the volatility of investment performance returns achieved relative to the target benchmark on a 36-month rolling basis. Realized active risk is evaluated at the fund level as well as each asset class level. Risk-monitoring standards are established for the total fund and each asset class. Realized risk may fluctuate around the monitoring standard. If risk levels materially and/or persistently exceed the monitoring standard, there is enhanced oversight. Realized risk should not exceed the escalation standard.

**The Total Fund and all asset class risk levels remain within acceptable risk levels.**
