

## Yield Increase in July

You may have noticed that your interest allocation during the month of July was approximately double the normalized yield from the prior month. Due to an unexpected \$1.3 million payout from legacy securities formerly held within Fund B, the pool's yield increased during the month of July 2021 from 0.1% to 0.19%. The timing and amount of future payouts from these same securities, if any, is unknown.
