FLORIDA PRIME UPDATE

As part of our commitment to keep participants apprised of market developments as they occur, the SBA is providing this update on the operations of Florida PRIME. We plan to provide additional updates during the day as news develops or the pool's operational status changes.

As communicated late yesterday, Florida PRIME is unable to process participant transactions today due to bond market and financial intermediary closures caused by the storms in the Northeast United States. However, all participant transactions made during normal business hours on Monday, October 29th have been processed as requested.

Participants are strongly encouraged to check the Florida PRIME website regularly for status updates.
